# SPIn
POS Conduit

Fast and simple EMV integration for Developers, Microsoft Integrators, Business Owners & ISO/Acquirers.

Designed to facilitate a fast and simple EMV integration with 3rd party payment solutions such as tablets, POS systems, restaurant management systems, PC's, kiosks, etc.

FOR DEVELOPERS
EMV, NFC, Gift, Signature Capture – One Integration

Your software delivers a unique solution to merchants. SPIn provides a highly secure and versatile way to integrate payments and rapidly go to market eliminating the need for costly gateways!

With a single integration you have full access to our entire line of Dejavoo terminal products, processors certifications, EMV, Credit/Debit, Contactless, Apple Pay, Google Wallet and more. As payments evolve, any update to our host of terminals applications immediately become available to your Payment Solution without writing a line of code.

FOR ISOs / ACQUIRERS
Cost effective PCI & EMV secure option to upgrade POS systems

We provide flexible payment solutions that boost revenue using our differentiating payment software features and exceptional support. Dejavoo offers full deployment services including remote key injection fulfilling your merchant needs in a one stop shop.

FOR BUSINESS OWNERS
Keep your POS functionality with EMV security

Smart payment solutions can help increase profit. SPIn easily integrates with electronic cash registers, POS software, kiosks and more. Access your transaction reporting easily any place you can access the web using DeNovo Business Portal and DeNovo Mobile Application from your smart phone or tablet.

Any POS solution ←→ **SPIn** POS Conduit ←→ Any Dejavoo terminal ←→ BANK

THE SPIN SOLUTION

- Lightning fast payment enabling integration with the POS Systems.
